Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. It is noted that the specification, claims and abstract most current in the application are the ones filed 24 August 2004 in response to the Notice to File Corrected Application Papers dated 13 April 2004. As such, examination is being conducted with respect to the papers filed 24 August 2004. While the papers filed 07 July 2004 were entered, they do not constitute the most recent papers and should be resubmitted in another amendment for examination, if desired, to avoid confusion.

Information Disclosure Statement

2. It is noted that references US 5,501,363 and US 5,076,433 were lined through on the IDS form filed 28 April 2005 insofar as the first reference was listed previously in an IDS and the second reference is a duplicate of the reference two lines above.

Drawings

3. The drawings filed 07 July 2004 are objected to insofar as they are not in compliance with 37 CFR 1.121(d) which requires one of the headings "Replacement Sheet", "New Sheet" or "Annotated Sheet" to be present at the top of each page.

4. The drawings are objected to under 37 CFR 1.84(h)(5) because Figure 10 show(s) modified forms of construction in the same view. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and

where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

5. The disclosure is objected to because of the following informalities: The specification filed 24 August 2004 is objected to insofar as the specification has been set forth in two different sections, i.e. pages 1 and 2 and pages 1-3 (labeled CSII-Preliminary Patent). The specification should be set forth together in a single section with extraneous material (e.g. inventor headings, signature, date, etc.) omitted.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1-10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hanauska.

Conclusion

The remaining cited prior art is illustrative of the general state of the art.

In order to reduce pendency and avoid potential delays, Technology Center 3700 is encouraging FAXing of responses in Office Actions to (571)273-8300. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by Applicants who authorize charges to a PTO deposit account.
